DEAR MEMBER's - RE OPENING DAY 2021

I am writing to members of the club in regards to changing the date of our opening day for the 2021 year of golf.

In the past our club has two opening days, one on a Wednesday and the other on the Saturday in the second week of March.

I would like to propose that — I believe that March is a perfect opportunity to conduct our club championships. I am open to any suggestions as to another date for the opening day to be held.

I appreciate the importance of opening day, particularly as a strong social event in our yearly calendar however after discussions with our head grounds person, our resident professional Golfer as well as my own observations as captain, I feel that the best time of the year to play our club championships is when the course is at its best condition for all our members to take full advantage of our beautiful golf course.

Choosing a time to host our championships has always been difficult as not only do we need to juggle pennant and gold letter events, but we need to consider the playing standards of the golf course.

In the past few years, we have had to deal with challenging conditions including mud rule and extreme weather. Due to this I feel that March rewards us with the best possible experience for all our members of our course.

The Golf course belongs to our members and I believe that for our members we should be able to play the championships when the course is at its best.

My proposal to members is to change the date of opening day and to have our club championships on the 3 Saturdays after the long weekend in March being 13, 20 and 27th of March 2021

I look forward to any feedback from members as to a possible new date for the opening or thinking we could maybe leave the Wednesday in March as our only opening day

Geoff Adamson Captain.
